

CHAIRMAN OF HOUSE

Committee is Preparing to Boost Price of Auto Licenses.

SLIDING SCALE FOR HORSE POWER

Under the Proposed Bill Cities Cannot Collect License.

Representative H. J. Kitter, of Miami, chairman of the house finance committee and one of the most influential members of the general assembly, states he will introduce a bill in the session of next winter to change the state automobile law so as to increase the registration fees and prohibit cities from collecting a license tax from automobile owners.

A Sliding Scale.
A uniform fee of \$5 is paid now for a state license, but it is proposed to change this so that the amount to be paid will be based on the horse power of the machine. For one of 20-horsepower or less the fee will be \$5; for more than 20 and not more than 30-horsepower, \$10; and for all over 30-horsepower, \$15. The insertion of the provision barring municipalities from compelling owners to pay a tax in addition to that exacted by the state will render the amendment satisfactory, and it is not thought there will be any objection to them.

Increased Revenue.
The increased fees will swell the receipts of the department considerably and will mean that there will be a larger sum available for road improvement purposes. The receipts of the law now net the state about \$100,000 a year, and it is estimated that this sum will be increased at least \$25,000 next year by reason of the change in the law.

Measure is Prepared.
The proposed amendments will make the Ohio law similar to those of Pennsylvania and New York state relative to the license fees. The measure has already been prepared and is ready for introduction.

CITY SOLICITORS
Seek Light on Dark Spots in Paine Bill.

A call for a conference of city solicitors to study the new Paine municipal code will be issued by Attorney General Deussen and it will be held in connection with the annual meeting of the Ohio State Bar association, at Port-Huron, July 7. According to the ruling of the attorney general, the law abolishes safety boards on August 1 and between that date and January 1 there will be no body to which policemen and firemen could appeal in case of suspension by the mayor. After January 1 there will be created a civil service commission to which appeals may be filed. There is considerable confusion regarding the meaning of certain parts of the law and on these the solicitors want light.

GILT EDGE BUSINESS.

Increases Weight Quickly

Simple Way for the Thin and Fair to Be Plump and Rosy.

Samose can hardly be termed a medicine. It is in reality a food forming food. Taken before or after meals, it digests with the food you eat, enables it to assimilate and readily digests, so as to make rich blood and pleasing plumpness.

After Samose has been used a week or ten days a noticeable gain in weight is seen. The sallow complexion will become rosy, the sunken cheeks will have a ruddy glow, the eyes will be bright, the breath sweet and the step elastic.

The Samose for a month and all the flesh of the body will be firm and solid, and the outlines beautiful and harmonious.

With the return of good health following the use of Samose, emaciation is overcome, and the thin and scrawny are once more plump and rosy.

Wm. M. Melville's customers have told him of the remarkable results following the use of Samose, the great food forming food, and he is so thoroughly convinced of its reliability that he is selling it under his personal guarantee to refund the money if it does not do all that is claimed for it. You who are thin and in poor health cannot afford to let another day pass without getting a box of Samose on these terms, may 26-june 1

RAILROAD BREVITIES.

Eastern Roads in Market.
Pittsburg, June 1.—It is officially announced that the eastern railroads will come into the market early next month for freight cars, locomotives, passenger equipment, rails and supplies. The heaviest buying by the railroads is now in the Chicago district, where orders for the last ten days include 24,000 tons of shapes and 100,000 tons of steel rails.

The Union Pacific has ordered 100 heavy locomotives, and orders have been placed by the Harriman lines for 150 locomotives.

Local officials said Saturday that this is probably due to the fact that tonnage on the western roads is somewhat heavier at present than in the east. In a few instances car shortages have been reported on the lines west of the Mississippi river. Officials of some of the initial lines predict that orders for equipment and supplies, aggregating several millions of dollars, will be placed by the eastern roads before June 15.

It is expected that reports for May will show that the tonnage this month has been much heavier than at any time in the last eighteen months. On some of the industrial roads tonnage figures compare favorably with those of the first half of 1927, when many of the plants were operating to capacity.

Storekeepers of the various divisions of the lines entering Pittsburg have forwarded to general headquarters their list of supplies that will have to be purchased next month, and their reports show that the appropriations will have to be much larger than any time since October, 1927.

GREAT PRIZE DRILL

To be Feature of Knights of St. John Meeting at Cedar Point.

FIVE THOUSAND WILL BE PRESENT.

Among the Distinguished Guests Expected is Gov. Harmon.

Members of the order of Knights of St. John from all parts of the United States will hold an outing at Cedar Point during the entire week from June 13 to 29. The outing will be under the auspices of the three Ohio commanderies, which will hold conventions at Cedar Point during the week, but the affair is really an international one, and is the first of the sort ever held by the Knights of St. John.

It is expected that from 3000 to 5000 members of that order will attend, in addition to other guests. Nearly 500 will attend from Columbus.

Governor to Attend.
Governor Harmon has promised that he will attend, and the chief prelates of the state, Archbishop Moeller, of Cincinnati; Bishop Hartley, of Columbus, and Bishop Farrelly, of Cleveland, have been invited.

Plans have been made also to make it convenient for Judge O. H. Hughes, General C. C. Weybrecht and General J. C. Sparks to attend.

Great Prize Drill.
A feature of the exercises is to be a grand prize drill for which \$1000 in prizes will be offered. In this, four Columbus commanderies, Nos. 97, 98, 117 and Cadet Commandery No. 115, will take part.

Columbus has a particular interest in the event since C. W. Wallace, supreme commander of the Knights of St. John is a Columbus resident, and all the plans are being made here. The committee in charge will hold a meeting Sunday to make further arrangements.

CAMP DESTINY

At the Orphanum This Week Is Great.

The demand for the big and imposing for vaudeville features brings "Destiny" forward as the greatest and most brilliant production of the season. A year or two back this gorgeous spectacular triumph would have seemed as a single attraction to crowd the largest houses. The tremendous success of "Creation" and "Johnstown Flood" is recalled in "Destiny". The public is treated to a scenic and electrical display compared to which the foremaned productions are crude and primitive.

"Destiny" was designed by Mr. C. Nelson Camp, of Brooklyn, N. Y., whose original scenic "Doomsday" is still drawing overflowing audiences wherever presented. Many thousands of dollars have been expended in staging the new production of "Destiny" which transports many tons of electrical, scenic and mechanical apparatus and a corps of skilled operators, including Mr. Camp, the inventor.

"Destiny" is said to be Mr. Camp's masterpiece, and far exceeds that of "Doomsday".

Aside from this wonderful act there are three other distinct features at the Orphanum this week. Mr. and Mrs. Franklin Colby, presenting their original black art Transfiguration novelty musical act, which is the greatest musical novelty before the American public today.

Ed. Dunkhurst, assisted by a capable company, in his presentation of "The Cry Baby" is a big comedy hit. "Del-a-Phone" the great mimickian and comedy vocalist, will be one of the best entertainers that Orphanum has had in many months. The Orphanum was packed to the doors at the matinee and night performances yesterday. Del-a-Phone made a big hit with some clever imitations. He imitates everything from a pig to a street car and does it all cleverly, too. Guy Sampson in an up-to-date monologue and some popular songs, which were well rendered, scored well. The entire show is one of the best ever seen in Lima and the people were loud in their praise of it.

Alone in Saw Mill at Midnight, mindful of dampness, drafts, storms or cold, W. J. Atkins worked as night watchman, at Banner Springs, Tenn. Such exposure gave him a severe cold that settled on his lungs. At last he had to give up work. He tried many remedies but all failed him he used Dr. King's New Discovery. "After using one bottle," he writes, "I went back to work as well as ever." Severe Colds, Croup, Whooping Cough, infantile pneumonia and sore lungs, hemorrhages, croup and whooping cough get quick relief and prompt cure from this glorious medicine. 50c and \$1.00. Trial bottle free, guaranteed by H. F. Vorkamp, druggist.

Lancaster, O., June 1.—The Cigar-makers lost both games of the doubleheader here today, Kaler being outpitched by Justus in the first contest which resulted 3 to 0. The grounds were heavy, the morning game being postponed owing to this condition and a double-header played in the afternoon.

In the second game Spitball Miller proved easy picking for the locals and a total of eleven runs were piled up, while the visitors were guilty of several costly errors. The condition of the field made fast work an impossibility, and it was a break of luck when any fast fielding was done.

The loss of two out of three games pulled the leaders down a few notches and places them within fighting distance of the Lanks and Shoemakers, which may be disastrous within the next few days. The Shoemakers will have a try in a series of three games at Lima beginning today and with the class of ball they have been putting up, the Stogie-rollers may not have such a cinch on first place. Marion Took Two. Marion, O., June 1.—Batteries errors, errors of judgment, combined

with three hits, gave Marion five runs after two were out in the second inning. Freeman was wild and ineffective and gave way to Schantz in the fifth, who pitched good ball. Huber's batting and Farrell's fielding were features. Score: R H E. Manfield 000100001-2 6 1. Marion 050100100-7 6 1. Batteries—Freeman, Schantz and Breyer; Hancock and Johnston.

Morning Game.—Marion, O., June 1.—By grouping their hits the Diggers took yesterday morning's game from the Tigers. Whipple succeeded Mercer, who was wild in the second, and though hit freely, kept the bingles so well scattered that Manfield never got a look-in. The batting of Farrell and his fielding was spectacular. Score: R H E. Marion 20023010-8 8 2. Manfield 001000030-4 9 1. Batteries—Mercer, Whipple and Johnston; Hoffman and Breyer, Redman.

Won Two by Hard Hitting. Portsmouth, O., June 1.—The locals won the morning game by finding Moore for 14 hits in four innings, while Christian was effective throughout. In the afternoon Pinkney scored both times for the visitors on good hitting and base running. Ludwig tied up the score in the third with a home run over the fence and drove in both runs in the fourth with a timely single. McKernan, East Norwood boy, last year with Brockton, Mass., arrived at noon to take the place of Evans, who wrenched his leg sliding Sunday. His fielding and that of the veteran Blake at second in the first game were features. O'Hara, utility outfielder, was up four times in the morning and got four hits. Score: R H E. Portsmouth 21310000-7 16 1. Batteries—Fisher, Lloyd and Johns and Lake; Christian and Doran.

Afternoon Game.—R H E. Portsmouth 00120000-3 6 0. Newark 100010000-2 7 1. Batteries—Ludwig and Doran; Moore, Chase and Johns.

EXCITING CONTEST

Won by Giants from White Sox Monday at College Grounds.

ASHTON WENT UP IN NINTH.

Seldon and Nagle Battled for Honors With Record at Bat.

There being no game at San Felipe park Monday afternoon, a large crowd was present at the college grounds to witness the contest between the Lima Giants and White Sox, in which the former were the victors, securing four runs in the ninth inning, when they landed on Ashton's delivery for four hits. Kohl pitched the first three innings for the White Sox and did good work, but received poor support. Ashton pitched a pretty game until the ninth. For the Giants, W. Collins officiated on the slab for six innings when Reed was substituted, who proved a puzzler for the White Sox. Seldon, of the Giants, and Nagle, of the Sox were hot contestants for batting honors, in which Nagle had the advantage. The score:

Great work that of the senate on Memorial Day, when it handed the people a 50 per cent increase in the duty on lemons—a pure gift to the "fruit trust" of California. It may not strike you as exactly right, but it is never-the-less true that so long as Aldrich keeps on studying the tariff, just that long you will keep on paying the bills. The Toledo Blade remarks that since Aldrich is so fond of children, it is likely that children will continue to be admitted free.

OHIO STATE NOTES.

Both Managers Tim Flood and Chas. O'Day are disappointed, for both counted on landing infielder LaRue and Pitcher Brown from Columbus, and the two were sent to Grand Rapids and the Central. They join the Slugs at the Ohio State last fall, but have so far failed to show the class desired by Manager Clymer who like "ex-big leaguers."

DECISIONS HANDED

Down by Supreme Court Which Pertain to Allen County.

STATE VERSUS WILLIAM SANNER.

Excepting to Local Court Dismissed for Want of Preparation.

Columbus, June 1.—Among the decisions handed down today by the supreme court are the following: Elb Hamilton, admr. vs. William Creps, et al., Allen county; judgment affirmed.

Robert Snodden vs. Cleveland Machine Knife Co., Cuyahoga county; judgment affirmed. Union National Bank of Cleveland vs. Matilda A. Gill, et al., Cuyahoga county; judgment modified so as to permit all creditors of the corporation to participate in the funds arising from unpaid stock subscriptions. In all other respects the judgment of the circuit court is affirmed. Summers and Spear, J. J., do not concur in affirmance of the judgment against the Union National Bank.

The L. E. & W. R. Co. vs. Bertha Garret Newright, admr., Allen county; judgment affirmed. State of Ohio vs. William Sanner, exception to court of common pleas of Allen county. Dismissed for want of preparation.

THE IDLER.

For Anglers—a fishing rod has been invented which honestly weighs and measures every fish that is caught. This unjust implication that all fishermen are liars when reporting their catches makes it certain that the invention will be a drug on the market.

The Chicago pie famine does not apply to one Bill Lorimer, successor to Hopkins, United States senator.

There are many brilliant congressional schemes afloat that are not going to work.

Judge J. N. Hutchison today bought the Ferguson property on south Cole street, between Elm and Spring. It will be occupied by the judge and family as a residence after the middle of this month.

After a critical illness of several days "Uncle" John Williams, of south Main street, somewhat improved.

Probate Judge Hutchison has purchased a cosy home at 233 south Cole street, from E. E. Hiner and T. N. Cunningham.

A cablegram to Mrs. Martha J. Agterter, of west Market street, announces the birth of a son to Mr. and Mrs. Harry Jenks, at their home in Wolverhampton, England. Mrs. Jenks was Miss Martha Agterter, of this city.

Rev. Edward H. Melony, rector of Christ Episcopal church, delivered the annual memorial address at Valenciennes yesterday. The little village had planned to have the exercises held at the cemetery, a mile from the town, and had a fairly decorated stand erected for the speaker, but the threatening skies were too much like rain and indeed before the afternoon was over a brisk shower had fallen, which would have worked havoc in the program had it not been decided at noon to carry it to the town hall instead of the cemetery.

Harriman got 30 newspaper men into his Fifth Avenue dining room yesterday, and told them how the government and the business of the country should be run. It was a dangerous and bold thing to do, for somebody may adopt his suggestions, and try to own a railroad system, long enough for Edward to break him.

Great work that of the senate on Memorial Day, when it handed the people a 50 per cent increase in the duty on lemons—a pure gift to the "fruit trust" of California.

It may not strike you as exactly right, but it is never-the-less true that so long as Aldrich keeps on studying the tariff, just that long you will keep on paying the bills.

The Toledo Blade remarks that since Aldrich is so fond of children, it is likely that children will continue to be admitted free.

Castro might as well stop abusing the United States until the affair of "Mistab" Johnson with Jeffries is settled, and the tariff muddle ended. Until then

WEATHER.

Washington, June 1.—For Ohio:
Showers tonight or Wednesday.

Wonder if Roosevelt would put
the senators who are revising the
tariff up in the Asanias club.

That fame is fleeting is convinc-
ingly proved by the failure of a Ted-
dy bear manufacturer in New York.

Flint talked about a duty on
lemons and the senate as a whole
landed the entire people one by in-
creasing the duty on potatoes from
25 to 45 cents a bushel.

WHERE PUNISHMENT BELONGS.

There is much food for thought in
the records of many members of con-
gress during the past three months
on the tariff schedules. Out of them
all comes that one great fact that on
one side are the servants of the people;
on the other are the servants of the
special privileges and the trusts. The
latter have a safe majority, because
there has always been enough democ-
rats to vote with the interests to de-
feat the efforts of the insurgent re-
publicans who are fighting for tariff
revision downward.

Every man who is aligned with the
interests should be punished no mat-
ter what party cloak covers him, and
when the people start to do that as
they must for self preservation, it
will be necessary for them in some
cases to ignore party lines and put
the cleaner on men whose public life
and acts are in direct opposition to
their interests. In other words: sal-
vation in tariff matters seems to have
its hope only in the punishing of in-
dividuals rather than parties.

NEW RICHMONDS IN THE FIELD.

Ancient the making of a congress-
man for this district to succeed Hon.
W. E. TouVelle, the Wapak Times
contains the following editorial boost
for an Anglaise county man:

"Whether Mr. TouVelle would
accept a nomination again is
mere speculation, but whatever
his mind might be on the sub-
ject we know an Anglaise county
man, who has had the ambition
placed within his breast, and had
that ambition fostered by admir-
ing friends. This man lives in the
peaceful little city of St. Marys
in a modest, unassuming
way, since completing his term
in the Ohio house of representa-
tives, except what time he is
called to Columbus to assist Gov-
ernor Harmon and his friends in
the policies of the nation. Hon.
Lemuel G. Neely has developed
wonderfully since his starting in
to politics several years ago un-
til now he is the biggest figure
in Anglaise county politics.
Everybody knows Lem Neely
and admires him. His
friendship record was pleasing to
the people and he can have the
Anglaise county backing with-
out any trouble if he wants it.
With W. E. TouVelle out of the
field he will get the support of
Mercer county and he has enough
friends in Allen county to win
that county over to his side.
Hon. Lemuel G. Neely, M. C.,
would look good to us on the
back of good packages and con-
gressional documents and we
know if he is nominated and
elected agricultural interests
would have his first considera-
tion."

Since our comments on the con-
gressional situation last Thursday,
rumor has it that Hon. B. F. Welby,
who has served the people of this
county so well as preceding attor-
ney will enter the contest from Allen
county, making the number six pos-
ed as in the lists, with possibly more
to come.

LIMA RESCUE HOME

Is Still Working for Good of
Homeless and Wan-
dering Men.

MONTH OF MAY
AS REPORTED

Makes Splendid Showing
and Home is Still Self-
Supporting.

We find that love and kindness are
the greatest powers by which men
can be reached to give aid effective-
ly. If anyone is reached in that way
the most vile person will respond.
These two factors have not been fath-
omed by us yet. We know that the
Gospel of Jesus Christ will change
the most degenerate. The law will
check a man and keep humanity in
obedience to right but the gospel re-
news things, for "All become new."
Paupers, bums and imposters that
accept God's word will become bene-
factors and herein lies our strength
and our courage. We aim to give
our attention to each individual that
comes to our Home, in telling the
story of the cross. The effect on
many is very touching for they call
upon God to help them and their
lives are changed.

Recently a young man of 25 years
whose parents died when he was only
five years old in the city of New York,
applied for help. Aid was extended
and the story of the Crucified one
told. As he left he said "My life shall
be different." He is now working
for one of our merchants and is do-
ing well. Some days ago a young
man that was among the first appli-
cants to this Home when it was es-
tablished, came to see us. He is also
doing well, working for one of our
business men. He attributes his suc-
cess and his position to the influence
of Christianity and Christian lives.
There would be no end of relating
the many touching scenes of men who
stop as they pass through the city
and who receive words of encourage-
ment to live that noble life which
makes living content. We are sow-
ing seed by the wayside to win pre-
cious souls to Christ. Reader, you
may direct destitute men and wo-
men to our home either for meals or
clothing and we will supply what we
have. The Home is kept up by trea-
sures and donations and clothing will be re-
ceived at any time. Magazines, papers
and books will also be received either
for reading or junk. Call us by
either phone and we will respond.
Wednesday and Thursday are the
days to give out clothing.

During May 196 men registered
and \$78.82 received; \$77.72 spent.
Balance on hand June 1, \$1.10. A. D.

NOTICE.

It has been the custom of persons
to mow their lawns and throw the

SOLID TRUTH.

(Continued from Page 1.)

also, it may mark an epoch.
"This occasion marks also a
change in the conscious attitude of
the Pacific Coast toward the rest of
the country. It would be unjust to
say that this section ever failed to
realize the national integrity. The
Pacific States have not been appealed
to in vain on the chief issues of the
time. But there was once a certain
aloofness, a certain supremacy of
separate independent interest. There
long persisted here a kind of indif-
ference about what might be happen-
ing beyond the mountain barrier to
the east. People born here felt lit-
tle desire to cross it. Newcomers
soon found the old point of view lost
in a new local interest. The coming
of the trans-continental railroad first
shattered this isolation. The acqui-
sition and development of Alaska, the
development of your cities and the
upbuilding of your cities by the men
and capital of the outer world
strengthened old bonds and created
new ones. This exposition may be
regarded as the laying of the last
rail, the driving of the last spike, in
unity of mind and purpose between
the Pacific Coast and the country east
of the mountains. It is the witness
of that constantly broadening tie
which is both the price we pay for
civilization and the boon that it con-
fers upon us. Never again can the
Pacific Coast withdraw into itself;
never again can it know any slacken-
ing of the tide of life that sweeps
through all the nation's veins when
it crosses the great divide."

Mr. Hill referred to Alaska's re-
markable progress, recalling that
thirty years ago intercourse with it
was limited practically to the needs
of the sealing industry. The expo-
sition exhibits, he said, give a mere
hint of the contribution, still unre-
vealed to our fancy, which she is to
make to the national life and activ-
ity in the half century to come.

The speaker reviewed the develop-
ment on the Pacific Coast and said:
"When capital can be enticed back
into railway investments by assur-
ances of proper protection and a reas-
onable return, the progress of con-
struction will do more for the Pacific
Northwest than for any other part
of the country."

Mr. Hill said the unexhausted re-
sources of this section are the great-
est and most diversified in the United
States. "It is an area in posses-
sion abundantly all of the four great
sources of wealth which human life
depends," said he. "In our time,
when a human want and the means
of satisfying it cannot long co-exist,
no matter what distances and ob-
stacles lie between, without prece-
dently coming together, such resources
are cause not merely for local pride
but for world-congratulation. Those
who employ them wisely will play
no small part upon the big stage of
life."

Mr. Hill said the Pacific Coast has
participated in foreign commerce
more extensively than its population
or its wealth would suggest, and gave
statistics concerning the same. Con-
tinuing, he said:

"Measured by its linear extent, its
continental relations, its situation
with reference to the carrying trade,
and its position upon the ocean
where the world's future will prob-
ably witness stupendous changes, its
resources, its production and its com-
merce are substantial elements in na-
tional promise. No less weighty
should be its contribution to the
formation of national ideals, the
shaping of national ambitions, the di-
rection of national policies."
"The first and most imperative
word, I need hardly say, one which
the country has come to hear with
much respect and not a little fear as
to its future, is 'Conservation.' From
California northward to the extreme
tip of Alaska there are today prob-
ably more unimpaired natural resources
than in all the rest of the country.
You still possess the principal supply
of timber in the United States."

Mr. Hill emphasized the necessity
of forest conservation, care of the
soil, preservation of the fisheries,
conservation of natural resources,
and said: "The exhibition of your in-
telligence and public spirit that we
admire and celebrate today will have
been made to little purpose if it find
and leave you indifferent to the
greatest issue presented to the peo-
ple in our time, and one that must
occupy them increasingly hereafter.

BOSTON TEA PARTY

Held by Eagles and Citizens
on Public Square Mon-
day Evening.

PILE OF LUMBER
PUT OUT OF SIGHT.

Misunderstanding With Cin-
cinnati Block Co. Cause
of Action.

Members of the local and visiting
lodges of Eagles, assisted by citizens,
held a genuine "Boston tea party" on
the public square Monday evening,
when the huge pile of lumber, owned
by the Cincinnati Block Company,
and which occupied a large portion of
the southwest corner of the square,
was removed and stored on the Mar-
ket house grounds. The committees
had obtained permission from the
board of public service to store the
lumber at the Market house, and
equipped with sufficient wagons, the
party proceeded to remove the same,
which was a detriment to the appear-
ance of the square, which has been
made beautiful by the artistic de-
corating committee for the occasion of
the Eagle convention.

The Cincinnati Block Company had
made a proposition that they would
remove the lumber, if a portion of
the expense was paid from one of the
existing convention funds, but
through some misunderstanding, the
arrangement was not completed, and
as the opening of the convention ap-
proached, it was necessary for prompt
action upon the part of someone in
order to bring about the desired re-
sults.

Officers of the Cincinnati Block
Company appeared upon the scene
during the party and remonstrated,
but finally came to the conclusion
that the matter was adjusting itself
properly and took no legal action
to stop the work. There is about \$2,
000 worth of lumber in the pile and
all that the company will ask, is that
it be returned safely at the conclu-
sion of the convention.

Of Interest to Farmers and Mechanics.

Farmers and mechanics frequent-
ly meet with slight accidents and in-
juries which cause them much an-
noyance and loss of time. A cut or
bruise may be cured in about one-
third the time usually required by
applying Chamberlain's Liniment as
soon as the injury is received. This
liniment is also valuable for sprains,
soreness of the muscles and rheu-
matic pains. There is no danger of
blood poisoning resulting from an in-
jury when Chamberlain's Liniment
is applied before the parts become in-
flamed and swollen. For sale by all
druggists.

Point**

Badly typewritten letters convey
an impression of carelessness, business
methods, but the machine is often
more to blame than the operator.

The UNDERWOOD

Types always reach the proper printing point. This type-bar operates
through—on a guide—a feature peculiar to the Underwood—and
patented. The type must go right. There's no other way. It cannot
wobble up or down, or sideways. Good looking work is easy and the
visible writing prevents operator's blunders.

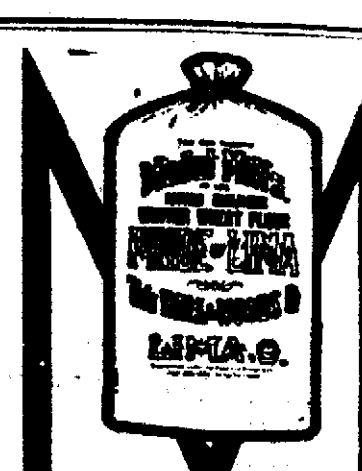

The simple mechanism which secures perfect work in the Un-
derwood is a mighty interesting exhibit of ingenuity and skill.
Why not come look at it? Knowledge of the Underwood will
help you to secure greater efficiency. It will be a pleasure to
help you to just as much knowledge of the Underwood Stand-

FIRST COMMUNION

Services Held at St. Rose
For Class of Fifty
Boys and Girls.

FATHER MANNING'S
ADDRESS TO THEM

Will be Long Remembered.
Breakfast Served to
Them All.

The first communion services for a class of fifty boys and girls at the seven o'clock mass Sunday morning at St. Rose church were very impressive. The children all of whom had attained their twelfth year looked bright and happy. The girls in their white frocks with veil fastened with a wreath of flowers and the boys in new suits with bouquets of choice flowers, presented a beautiful picture. The children during the celebration of the mass sang appropriate hymns and the address of the pastor, Rev. A. E. Manning to the communion class will be remembered by them as long as they live. After the services a delicious breakfast was served to the first communicants in the basement hall of St. Rose school by members

of the Young Ladies' Sodality. At 3 p. m. the class attended benediction and made a renewal of their baptismal vows and were enrolled in the Sodality. A six o'clock dinner was tendered them at the home of Mr. and Mrs. J. W. Shanahan, of North Main street. The honored guests at the dinner were Rev. A. E. Manning and Rev. R. H. Monin.

ADVANTAGE OF FLATS

People Living in Them Less
Liable to Have Any
Illness.

HAVE NO ROOM
SAVE IN PARLOR.

Mental Suggestion Drives
Away Every Thought
of Sickness.

New York, June 1.—"I don't suppose," said Mr. MacWhackleton, "that a flat would commonly be considered as more conducive to health than a house, and I wouldn't undertake to say myself that it is, but I do think that a man living in a flat is more likely to keep from being sick—in some circumstances. You take my case for instance."

"In our flat I sleep in the parlor; this because there's no room for me anywhere else. Of course we don't have a folding bed in there; we have some sort of lounge, or what looks like a very comfortable lounge, by day, but which we can open out and make up into a very comfortable bed by night."

"My health, generally speaking, is good; in fact, it's very good, but occasionally I get under the weather and I'd like to be sick for a day or two, and if we lived in a house where I had a room off somewhere by myself, why, I'd be sick; I'd go to bed for two or three days and be comfortable. But I can't do that, not where I live in a flat, while I sleep in the parlor."

Many Difficulties.
"Suppose I should get sick and go to bed there. Why, it would introduce into the household at once about fourteen hundred and eighty-seven different and distinct difficulties and complications, disrupt the whole organization, put the whole outfit out of business. Suppose we should have callers, for instance, some evening and you heard somebody explaining to them as they came along the hall on the way to the dining room where they'd have to take them: 'We can't take you in the parlor because father's sick in there,' and that's only one of the endless complications that would ensue if I should be sick enough to go to bed, that is where I'd have to go to bed; it would just simply bust up everything."

"So there you are. I wouldn't undertake to say at all whether a flat is more conducive to health than a house is, but I would say, with no hesitation whatever, that a flat is more likely to keep a man from getting sick, that is, if he is situated as I am, with no place for him to be sick in. Seriously, I don't know but what this is a good thing for me. It makes me keep from getting sick on slight provocation, it makes me brace up and keep going."

Alaska-Yukon-Pacific Expo-
sition Built in
Two Years

BY EXPENDITURE
OF TEN MILLIONS

Which Was Provided by the
Enthusiastic Men of

Northwest,
Seattle Subscribing \$650,000 in One Day and
Later More.

Seattle, Wash., June 1.—The Alaska-Yukon-Pacific exposition cost \$10,000,000, and was built in two years. The grouping of buildings is much different than at other expositions. The structures are compactly placed; there is no long, tiresome walk from one exhibit to another. After entering the main gates, two buildings standing in a cluster of trees to the left, first meet the eye. One is where the administration of the exposition is centered, and the other the auditorium, a brick and steel building of imposing architecture.

To the right and across Puget Plaza, is the Fine Art Palace. This building contains a valuable art display loaned from famous collections all over the world. A few steps lead to the intersection of Olympic place and Alaska avenue. To the right is a view down the "Pay Streak," the exposition amusement way, and to the left, a front view of the Auditorium and the University of Washington, in the distance.

The "Pay Streak" is also reached by following a thoroughfare to the right, just inside the main entrance gates, and on past the rest headquarters of the Women's League and the Masonic, Swedish and other buildings.

Crossing over Olympic place and walking to a point of vantage in front of the main government structure the beautiful picture of the fair is unfolded. To the right the Alaska building, to the left the Hawaiian building, and on either side of the Cascade the Oriental, Foreign, Manufacturers, and Agriculture palaces. In the distance are the Music Pavilion, the buildings of Canada and Japan, and, completing this picture, Mt. Rainier, the highest mountain peak in the United States. Various avenues and streets branch off in every direction. On every thoroughfare is something of interest. Buildings stand out everywhere in this forest of trees. Natural beauties are on every hand.

The Fine Arts building is not far from the entrance to the grounds. It is a permanent structure of concrete and brick. Next in line comes the main government building, with its massive dome, the architectural climax of the fair. In this structure are the exhibits of the various departments at Washington. In a separate building is the wonderful display of live fish, and in another wing the biograph room, where moving pictures illustrate how the U. S. seals are handled, the rural free delivery and many other things of interest.

The Philippines, for the first time, are represented and Hawaii too, occupies a building directly in front of the main building and across the street is the Alaska building. The Alaska building, with exhibits of the varied resources of the northland, is a feature of the fair. Alaska, Hawaii and the Philippines are represented at Seattle on a scale not contemplated when the exposition was suggested.

The general scheme of architecture of the fair is in the French Renaissance. This is noticeable in all the larger buildings.

The first county exhibit building on Dome Circle is the handsome structure built by Spokane county and directly adjoining it is the Chelan county structure. Nearby are the Utah and Idaho state buildings and in the distance the log cabin of the Arctic Brotherhood, an Alaskan fraternal organization. From the point looking across the national amphitheatre where a great exercise are held is the first view of Lake Washington. Directly across the Spokane building is California's home in Spanish mission architecture. This building contains exhibits from every county and is the most complete display of the wonderful resources of the Golden State ever assembled away from home. In the rear of the California building and facing on Seward avenue is the New York state structure, a replica of Seward's old home near Albany, New York state. In the New York building is a banquet hall. The structure is one of the most imposing and fair.

Containing the journey down Pacific avenue to the Forestry building, with its glondade of fir logs from Washington forests, next comes in a view facing on the opposite side of Dome Circle from the Oregon and Washington state buildings. The Forestry building is the largest log house in the world, and, after the exposition will be used as the school of forestry of the University of Washington.

All of the social functions take place in the Washington building. The Oregon building was ready six months before the fair opened. The various counties of Oregon have provided a fine line of exhibits of the fruits, grains and woods raised in that state and interior decorations of the building show many farm and woodland scenes done in grains and grasses.

In the rear of the Forestry building, and on a hill overlooking Lake Washington, is the Hoo Hoo house, the home of visiting lumbermen. Large black cats with sparkling eyes guard the entrance gates.

Pacific avenue eventually leads to Rainier vista, and nearly encircles the exposition grounds. Leaving the Forestry and Oregon buildings, and proceeding down this thoroughfare the King county building, an ornate structure, comes into view and directly across the street stand the Dairy and Good Roads buildings, Machinery Hall and the Model foundry. Near the Machinery Hall is the Music Pavilion, almost hidden by a hedge of Douglas fir, where band concerts are given daily.

In the rear of the Music Pavilion is the big exhibit palace erected by the dominion of Canada and adjoining this structure, the Grand Trunk Railway building. The landscape features about these two buildings are in harmony. A few steps from the Canadian building leads to the heart of the gardens and Rainier vista. Straight ahead is a magnificent view of Mt. Rainier and to the rear is a view across Geyser Basin and Cascade Court to the central government building. It is the main axis of the fair.

On both sides of the main court are the big exhibit palaces, with their displays, covering many acres. To the left is the Manufacturers Palace and directly across Geyser Basin, the Agricultural building. Leading manufacturers of the United States and Europe have sent exhibits showing the various processes through which American made goods pass before the finished article is turned out. The balcony of this building is given over to a complete arts and crafts exhibit.

Counties in the state of Washington not represented by separate buildings have provided displays in the Agricultural building, and there is a large exhibit of fruits and vegetables. Just beyond the Manufacturers building and adjoining the Hawaiian building, is the Oriental palace. There Levantine countries are well represented. Particular attention has been given to the displays from Turkey, Greece and Syria.

Directly across Cascade Court stands the Foreign Palace, where Germany, France, Great Britain and other countries have exhibits.

The Japanese building is next to come into view. There are exhibits from almost every province in Japan. The Y. M. C. A. exhibit is close at hand and following Pacific avenue for a block, the Mines building is seen. Minerals from the state of Washington are on display here and the collection of ores has probably never been equalled. From the Mines building it is only a step to the Chinese village, the Swedish building, the model photographic building and the Pay Streak attractions.

On from the main exposition grounds are the model farm, the athletic stadium and the stock exhibit, the miles of woodland paths, natural parks and restaurants set in among the trees and shrubbery. Drinking fountains have been provided, the water supply coming direct from Cedar mountain. The grounds are well lighted and French electric lights outline the vistas.

Lake Union and Washington, adjoining the exposition, permit of aquatic sports of every nature. Military and naval drills participated in

Eczema a Germ Disease.

Myriad of Microscopic Animals Infest the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin? Myriad of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festering thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema. That is also why salves which do not penetrate can do no permanent good.

Ordinary oil of watergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving Nature a chance, while killing the germs faster than they can multiply.

Hunter Bros. Druggists, of this city, carry D. D. D. Prescription, also D. D. D. Soap in stock.

by sailors from the American and Japanese cruisers and soldiers from the government forts near Seattle are big features and the reviews of the troops are witnessed by thousands of visitors.

Balloon and airship races are among the big events and aeroplanes tests are conducted by the Seattle Aero club. Some of the fastest motor boats in the world race daily on Lake Washington and picked crews from the Igorrote and Eskima villages try their skill in handling the oars in their native craft.

The amusement street at Seattle contains a full mile of attractions. Bands of every nation give concerts daily.

The landscaping of the grounds has been carried out on an elaborate plan. In the illumination, thousands of incandescent lamps have been strung along the buildings. The Alaska shaft is made a tower of light and the Cascades are broken into rainbows. The Geyser Basin at the foot of the falls is also made beautiful by hundreds of submerged lights of various colors.

When the exposition work was begun it was necessary to remove a large portion of a 250-acre forest of towering fir trees. Many of them were left, and today they lift their tops 350 feet above the grounds. By night every branch is picked out with electric lamps and festoons of more lamps are draped from tree to tree. Among the gardens and the trees are many rest stations. It is possible for 50,000 persons to be seated at one time and regard has been given to every other comfort. Drinking water, brought from a glacier lake in the mountains, is plentiful and free.

The exposition has been financed by the northwest. Seattle subscribed \$650,000 in one day and later made it \$800,000. Still later a bond issue of \$350,000 was taken up over night. The state of Washington appropriated \$1,000,000 with the proviso that not less than \$600,000 of the amount should go into permanent buildings to revert to the University of the state of Washington. Oregon, California, Canada, Japan, China, Idaho and other states and nations assisted with liberal appropriations for buildings and exhibits and the United States government appropriated \$600,000 for its own building and for the exploitation of the Philippines, Hawaii, Alaska and the fisheries.

The administration of the exposition has been in the hands of various departments, each department backed by a committee of the leading business men of the northwest. J. E. Chiberg, a pioneer of Alaska and head of the Scandinavian American Bank, is president. John A. McGraw, ex-governor of the state, and H. C. Henry, another banker and vice president. Mr. Henry succeeded Richard A. Ballinger, when he was called to the department of the interior by President Taft. William Sheffield is secretary, C. R. Collins, treasurer; James A. Wood, director of exploitation; Wilfred Beaton, chief of the department of publicity; A. W. Lewis, chief of the department of concessions; Henry Desch, chief of the department of exhibits; Frank B. Allen, chief of the department of work, and I. A. Nadeau is director general. Frank Dunham is assistant to the president.

The Alaska-Yukon-Pacific exposition, was in the beginning, intended to be no more than its title implies, but it was enlarged, perfected and made a world's fair, to the scope of a world's fair. Demand from Europe and the eastern states was so insistent that it could not be held to the original limitations.

The idea was conceived by Godfrey Chealander, a pioneer of the Klondike. It has been carried out by a coterie of the most energetic business men of the northwest.

PAINFUL INJURY

Was Sustained by Samuel Lawrence.

While engaged in removing a broken plate glass window at the Metropolitan block Tuesday morning, Samuel Lawrence sustained a painful injury, a piece of glass striking the wrist of his right hand and severing the artery and tendon. Dr. F. G. Stueber happened to pass as the blood was spurting from the wound and immediately applied an emergency bandage and took the injured man to the city hospital in his carriage, where Dr. O. E. Chenoweth dressed the wound.

"Time's Flight Turned Backward" SAGE AND SULPHUR Made Her look Twenty Years Younger

READ MRS. HERRICK'S SWORN STATEMENT
STATE OF NEW YORK)
County of Monroe) ss.
Nancy A. Herrick, being duly sworn, deposes and says: When I was a school girl I had a head of heavy, long, dark brown hair, that was so plentiful, rich and glossy, that it was the envy of many of my young schoolmates, and attracted the attention and remarks of strangers. After I was married and as I grew older, my hair commenced to come out just a little at first, but gradually as time passed it came out more and more, and began to turn gray. I was induced by many good reports heard of Sage and Sulphur, to try a bottle. My hair was quite gray and thin on top when I commenced using Sage and Sulphur, and you may imagine my satisfaction when I found that it was fast coming back to its natural condition, becoming thicker, darker, smoother and glossier than it had been for a long time. I continued the use of Sage and Sulphur and my hair is now in a splendid condition, as heavy and as dark and smooth as when I was a girl of sixteen. From my experience I believe it is one's own fault if they lose their hair, or let it get gray or harsh. It is now four years since I commenced using Sage and Sulphur, and still use it, and my hair is still keeps thick, dark, smooth and glossy.

GOOD WORK.

Rev. R. Buell Love, D. D., of Wooster, O., the financial secretary of the Western Seamen society for sailors and others in the different ports on the lakes and rivers, is now gathering funds in the place of Rev. Hiram Sears, D. D., who is disabled by old age and affliction.

There are 2,500 vessels on our northern lakes. It takes 35,000 men to man them. It takes more than twice that number to do the work on the shore and they are called longshoremen. Add to this number the wives and children of all these men and we have a vast horde of people seldom if ever reached by the up-town churches.

This society has for nearly eighty years been doing a wonderful work in the ports organizing and assisting Bethel Missions, where thousands of persons have heard the gospel, and many of them have been converted. Our Bethel Sunday schools have been the means of molding the lives and cheering the hearts of thousands of children.

Eternity alone can tell the amount of relief which the poor and the afflicted in our Bethel districts have received from the charities given out at these missions.

Dr. Love spoke in the Market Street Presbyterian and the Trinity M. E. churches Sunday and will call upon the friends of the society this week.

FULLERTON TELLS OF TWO PLAYS WHICH WILL LIVE IN HISTORY

Hugh Fullerton, telling of "Deciding Moments of Great Games," in the June issue of the American magazine, relates two marvelous plays, one of them by "Hughie" Jennings and the other by Herman Schaefer. He says:

"One of the greatest exhibitions of nerve and courage was given by 'Hughie' Jennings, now manager of Detroit, in a game in Chicago when he was playing shortstop for the famous old Baltimore team.

"The crowd had encircled the playing field and was surging closer and closer to the base lines as the battle progressed, and when the ninth inning came with the score tied, one out and 'Bill' Everett on third base, it looked as if Chicago had won and that Baltimore by losing would be compelled to surrender the pennant, the batter hit a foul ball high and into the crowd back of third base. The crowd was then ten feet deep, part seated and part kneeling, with rows of standing spectators behind Jennings, tearing across from short, did not hesitate flinging himself through the air, he caught the ball over the heads of the spectators and plunked down upon them.

"Everett, in the meantime, had touched third base and was springing for home, Jennings, climbing upon the heads and bodies of protesting spectators, threw to the plate, cut off Everett and in the next instant Baltimore won the game." And his one on Schaefer:

"Another magnificent individual feat was that of 'Dutch' Schaefer, the Tiger second baseman. It was in the opening game of the world's series between Detroit and Chicago in October, 1907, a game which for thrills and excitement was the greatest ever played. An immense crowd watched the battle and both teams were near exhaustion in the twelfth inning from the succession of exciting and desperate plays. The crowd seethed and bubbled with excitement and apouted volcanoes of noise at every move of the players.

"The score was tied, Chicago had a man on first base and two men out, when Frank Chance hit one of the fiercest drives of the year, a line smash between first and second which, if it cleared the infield, was certain to go to the corner of the grounds and bring home the run for which the clubs had fought for more than two hours.

"Schaefer, playing down near second base, raced back ten steps, leaped, twisted, stuck out his gloved hand with his back to the stands and while twisting dragged down the ball and the crowd was so strong by the wonderful catch that it forgot to applaud, until the umpire had stopped play and called the game a draw."

Many of our citizens are drifting towards Bright's disease by neglecting symptoms of kidney and bladder trouble which Foley's Kidney Remedy will quickly cure. Enterprice Drug Store, N. M. Keltner, Prop.

HOOVER & BOND,

LIBERTY BIRDS IN POSSESSION OF THE BANNER CONVENTION CITY.

Mayor Becker Welcomed
the Visitors at Open-
ing Session.

PRESIDENT DOTHE
MADE HIS REPLY.

Chillicothe and Sandusky
Hot Contestants for
Next Meeting.

United States of America
choose as their emblem the
bird of the air, fearless,
majestic in strength and
to fly all its own.
After a fraternal order, with
the words of "Liberty, Truth,
and Equality" was banded
and no better name could
be found east or west, north or
south, than the name of the bird that
saw the greatest nation of
the earth and the fraternal order
of the world came into being.
The motto quoted above as
guiding star they have waxed
strong and vigorous as befits the
emblem of the American Eagle.
The members have increased and
the scattering Aerie at the
convention they are now found thick
and over every state in the
union, as one watches the
soaring which convened in
today, seems to have hun-
dreds of Aeries. For weeks this

C. F. EISE,
Candidate for State Prison Guard,
Galion, O.

ner of the Eagles in their colors of
red, black and white was waving
proudly above their symbol, and the
effect was a very pretty one.
Grouped on the platform were the
local delegates, members of the en-
tertainment committee, Mayor Becker,
the state president of the order,
Frank R. Dothe, Secretary Dan R.
Sullivan, Chaplain, M. F. Nellis,
W. F. Troop, Worthy President of
the local Aerie, and M. J. Barry,
of Columbus, also a speaker of the
morning, and a number of other
notables.
The delegates, on the platform, at-
tended to each and every session was
brought out at great length in the
speech of the state president.
M. F. Nellis, state chaplain, a mem-

that this would prove true of the
Lima convention.
W. F. Troop, worthy president of
Lima Aerie, welcomed the guests in
the name of the local organization.
He stated that they had gone after
the convention last year in fear and
trembling, though with a desperate
resolve to gain it if possible. The
"boasting" of the Lima bunch was
successful, and since that time the
order here had been busily planning
to entertain their friends in such a
way that they would never forget
Lima and the convention held here.
Grand Worthy Chaplain John A.
Cline of Cleveland was on the pro-
gram for a talk on "The Order Uni-
versal," but Mr. Cline had not ar-
rived at the time appointed so Mr.
Barry, of Columbus, very kindly
took his place. As the speaker had
only a few moments notice his
talk was also a short one, modeled
after those of his predecessors.
He said they expected to have a
good time. They came for that pur-
pose, and after business sessions
were over the order of the program
was to enjoy themselves, each in
his own way, with the approval of
the whole.
President Dothe then read the
names of his several committees,
and emphasized the fact that every
session would begin on time whether
the members were in their places or
not.
The committees appointed were as
follows:
Committee on Credentials—E. L.
Heyneman, Columbus Aerie, No. 27;
George Hannan, Chillicothe Aerie,
No. 60; L. H. Hoffman, Belmont
Aerie, No. 95; James E. Kane, Steu-
benville Aerie, No. 421; Ed. Bender,
Canton Aerie, No. 141.
Committee on Grievances and Ap-
peals—W. E. Hass, Delaware Aerie,
No. 376; W. E. Reynolds, Celina
Aerie, No. 1,291; Thomas Bell, Mur-
ray City Aerie, No. 1044; Thomas
Cook, Lorain Aerie, No. 343; Frank
B. Pratt, River City Aerie, No. 567.
Committee on Resolutions—Owen
Kane, Cleveland Aerie, No. 135; H.
L. Birkenhane, Toledo Aerie, No.
197; John Brown, Champion Aerie,
No. 397; Dr. A. C. Busel, Cincinnati
Aerie, No. 143; H. O. Stanton,
Zanesville Aerie, No. 302.
Committee on Now On.
Already the next place of meeting
is being hotly contested. It lies be-
tween the north and the south
Chillicothe, in Ross County, is try-
ing hard to land the convention,
but has a strong rival in Sandusky
with the attraction of Cedar Point
to increase her claims.
So it is with the officers. E. A.
Hanner, of Toledo, now vice pres-
ident, wants to hold down the pre-
sident's chair next year; so does Joseph
Dowling, of Dayton, a baseball fan
of the highest order, a fine all round
fellow and one who will be in at the
running.
John J. McCabe, now state treas-
urer, aspires to the office of vice
president, and so popular is the
general secretary, Dan R. Sullivan,
of Columbus, that as yet no one has
appeared in the field against him.
Several of the other officials are
ready and willing to succeed them-
selves and among others is C. F. Eise
of Galion, state outside guard, and a
popular man among his mates. He
is editor of the Galion Leader and
has the good nature and the kind-
ness that distinguishes the news-
paper man.
On the whole they are a jolly and
fine bunch of men who, with
badges glittering, flags waving, and
with music as herald and also fol-
lowing in their wake, they will keep
things moving and moving lively
during their stay.
Mardi Gras Parade.
The mardi gras parade tonight
promised to be one of the big things
and it expected to move promptly
at seven-thirty. Those who remem-
ber the carnival night of last year's
A. R. encampment are assured of
a similar good time this evening,
and the parade will be equally as
good. This forms at the market
house grounds at seven-thirty and
takes up the line of march as fol-
lows: Move south on Main street to
Circular, west on Circular to West,
south on West to Kibby, east on
Kibby to Main, north on Main to
Wayne, west on Wayne to West,
south of West to Market, east on
Market to Public Square.
The formation of those taking
part will be as follows, with per-
haps a few changes:
Grand Marshal, C. H. Shappell.
Aides, Right Dr. Burt Hibbard;
Left Walter S. Jackson.
Platoon of City Police.
Electric, Eagle Float.
Lima City Band.

Masqueraders.
The Darton delegates, Col. Jos. H.
Dowling, M. J. Collins, F. W. Wag-
ner, Frank Brewer, W. H. Muldrew,
Dr. L. F. Buckner, Alex. Mack, Jr.,
and Gen. Peter Weyer are the
enacts of their old friend, Col. Sapp,
at the Oakland. Col. Dowling, who
for many years has been a leader in
the democratic party in the state, la-
ments the fact that special railroad
rates were not secured for the con-
vention, and fears it will interfere
to some extent with the attendance.
Dayton Aerie will be here in its en-
tire strength on Friday, on which
day the attendance will likely reach
5,000.
Among the patriarchs in the order
who are present is noted John Mc-
Bride, of Columbus, who was a grav-
haired member of the legislature,

OHIO STEEL FOUNDRY

Made Defendant in Heavy
Damage Suit Filed Tues-
day Afternoon.

LOSS OF AN EYE
IS BASIS OF SUIT.

Plaintiff Asks for Fifteen
Thousand for Alleged
Negligence.

In a suit filed in common pleas
court Tuesday afternoon the Ohio
Steel Foundry Company is made
defendant in an action for \$15,000 dam-
ages. Louis Valenti, the plaintiff,
claims that he was employed as a
sawyer of metal by the defendant,
and that without any warning as to
the danger of the position, he was or-
dered to help in punching holes in
iron bars, and that the work neces-
sitated that he hold his head and face
near the iron bar, with his eyes on a
line with the same, while the holes
were being punched with a highly
tempered punch, which was used,
and that the defendant or its agents
failed to provide any protection for
his eyes, and that on December 5,
1907, while he was so engaged, a
piece of metal from the hammer or
punch flew into his left eye, result-
ing in an injury that necessitated
the removal of the eye ball.
He asks for \$15,000 damages.

The county commissioners viewed
the Wolfe ditch, petitioned for in Per-
ry township, and the engineer's re-
port will be heard June 22.

Men past middle life have found
comfort and relief in Foley's Kid-

kidney and bladder trouble and sev-
eral physicians pronounced it en-
largement of the prostate gland and
advised an operation. On account of
his age we were afraid he could not
stand it and I recommended Foley's

MAYOR MOORE HAD CLOSE CALL.

Youngstown, O., June 1.—Ex-May-
or E. H. Moore, had a close recall
from serious injury last night. Moore
was crossing Central square with a
friend to listen to a dry speaker who
was addressing a large crowd when
a horse took fright at a trolley car
and bore down on Moore striking him
with the shafts of the buggy. Moore
grabbed the horse by the bridle and
held on thus preventing himself from
being trampled to death by the animal.
He escaped with a badly bruised
right side.

Why Overheat Yourself?

Much of your summer pleas-
ure depends upon having a cool
and comfortable kitchen. Why
not be prepared for hot days
before they come.

Ask your dealer to show the
New Perfection Wick Blue
Flame Oil Cook-Stove. It's a
wonder.

Does the work of your big
range in every particular; but
has this great advantage over it,
that it never heats the kitchen.
The CABINET TOP is
another feature of the

New Perfection Wick Blue Flame Oil Cook-Stove

Has a spacious top shelf for holding dishes and for keeping food warm
after it is cooked. Also has drop shelves for holding
small utensils, and is fitted with racks for towels. No
other stove approaches the "New Perfection" in conveni-
ence, comfort and simplicity.

Made in three sizes. Can be had with or without
Cabinet Top. At your dealer's, or write our nearest
agency.

The Rayo Lamp is a center draft lamp of

IN MEMORY OF DEAD

And in Honor of Living
Soldiers Who Fought
in Civil War,

PATRIOTIC FOLKS
OF LAFAYETTE

Turn Out by Hundreds.

Eloquent Address by
Rev. Weaver.

Memorial Day, and the object its
name conveys is no more patriotical-
ly or sacredly observed than by the
people of Lafayette and Jackson
township, and if Monday's observance
is to be accorded its rightful place,
it will take precedence over those of
former years as a tribute to both the
dead and living veterans.

Hundreds, each carrying the
American flag, gathered in the beau-
tiful little village to see the parade,
to hear the music, to listen to the
recital of camp fire stories, and to
hear the Memorial Day address of
Rev. Weaver, of this city, and no
man, woman or child left for home
without an additional great big heart
full of love for the men who pre-
served the Union, and an ardent de-
sire that the nation will continue as
long as it lasts to annually pay hon-
or to their memory, and to praise
them for their heroic patriotism.

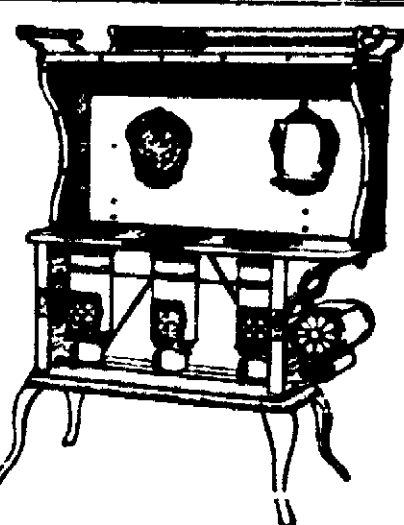

The parade, headed by the veter-
ans, whose number is annually
growing smaller, marched around
the beautiful soldier's monument
erected by the people of Jackson
Township, each old soldier casting a
sprig of flowers at its base, and
then back to the town hall. Many
children were in line, eager to keep
step with their aged leaders, and all
of them were given seats that they
might hear the address of Rev. Weav-
er, of Epworth M. E. church, this
city. Music for the parade was
furnished by a splendid martial
band which not only inspired but
cast a feeling of sadness over the
people, to many of whom it forcibly
recalled the loss of a dear one on
the field of battle.

Rev. Weaver's address was an elo-
quent and masterful presentation of
the causes leading up to the civil
war, the lessons it taught, which he
closed with a beautiful tribute to the
living and dead heroes of both the
civil war and the later conflict with
Spain. It was attested by all as the
best address ever delivered in La-
fayette on Memorial Day.

committee of Eagles, the entertain-
ment committee of the Progressive
Association and their aids have lab-
ored to make the welcome to their
visitors a fitting one.

The city has been beautified in
their honor plans have been made
for their entertainment, and had
among the various railway
stations yesterday afternoon, last
night and today, they would have
seen hearty welcomes extended to
the visitors, as they came by ones,
tens, threes and half dozens.

Every railway station, and the
entertainment committee as well, had its own
committee, and every man as he alight-
ed from the car was made to feel
that the done was the particular care
of some one man representing the
Lima Aerie of Eagles.

Those who were cumbered with
the cares of office and who are very
desirous of being cumbered with
such cares were early on the scene
of headquarters at the Lima
Hotel. It has been a busy place since
yesterday and not only the
Lima Hotel but all the other hos-
tels, as well as the filled to the

ALLEN COUNTY GRAND JURY MEETS IN ADJOURNED SESSION

Investigation of the Murder of Estella Maude Dilts Begun.

TWO JURIES WORK IN COMMON PLEAS.

Damage Suit and Contest of Will Nature of Trials at Hand.

At nine o'clock this morning the Allen county grand jury met in adjourned session for the investigation of various matters which have developed since the adjournment. The most important case under investigation is that of the murder of Mrs. Estella Maude Dilts, for which John W. Beam is now held in the county jail. The results of the investigation of the jury will be watched with interest.

Coroner Pfeiffer returned his verdict on the death of Mrs. Dilts, stating that she met her death from bullet wounds from a weapon in the hands of one John W. Beam. It is evident that the prosecutor and coroner have more evidence at hand than has been disclosed, and it is probable that the indictment will be for murder in the first degree, from the circumstances that have already developed.

In addition to the murder charge, it is currently rumored that Beam will be the subject of investigation on other charges. He is already under indictment for burglary and larceny on two separate cases, forgery, and obtaining property under false pretenses.

In connection with the murder case, it is said that developments show that there were two accomplices in the crime, and the work of the grand jury may develop something sensational in this line, as the Yorkum robbery case seems to have brought out connections that were

astounding, and the end of the story is in the far distance, according to expressions of those actively engaged in ferreting out the perpetrators of the crime and their accomplices.

Twenty-eight witnesses were subpoenaed to appear before the grand jury this morning and it is thought that the body will be engaged the entire week in the investigation of the matters before them.

Two Juries. In the lower court room the trial of the case of Wordy Wical against D. W. Steiner was begun this morning. The action is one for \$5,000 damages for alleged neglect in practice.

The plaintiff was injured at the Solar Refinery, February 5, 1908, having both bones of his left arm broken, and claims that the defendant was negligent in setting the broken bones, for which he asks damages. Dr. Steiner forcibly denies the allegations of the plaintiff, and is prepared to substantiate his grounds of defense.

In the upper court room the case of Ethel M. Shnyder vs. Chas. M. Paden and others, was begun. This case is the contest of the will of the late Laura E. Paden, in which the plaintiff alleges that the will was improperly executed.

New Suit. The Old National Bank vs. Herman Dickman, cognitv.

Marriage License. Guy D. Meachley, 21, and Britta M. Cummins, 20, both of Lima.

Vernon Weimar Wallace, 21, and Clara Ploy Adams, 18, both of Lima.

William E. Mumaugh, 28, and Gertrude May, 23, both of Lima.

The first application of Manzan, the great pile remedy, will almost instantly give relief. Continued use of Manzan for a few days will effect a cure. The tube in which it is put up has a small nozzle attached, so that there is no inconvenience whatever. Manzan is for the cure of any kind of piles. It is sold here by the Red Cross Drug Store.

LAWN SOCIAL. Mrs. Oscar Young's Sunday school class will give a lawn ice cream social at Frederick Heymouir's, 733 W. Market St., Wednesday evening, June 3rd.

HOLD TO GRAND JURY

James Tuttle Entered Plea of Guilty to Charge of Forgery.

SEVEN OFFENDERS WERE ARRESTED

For Illegal Fishing in the City Water Works Reservoir.

James Tuttle was assigned to prison's Tuesday morning on the charge of forgery, to which he entered a plea of guilty and was bound over to the grand jury in the sum of \$200. Tuttle was arrested on the complaint of William Ashton, the south side liveryman who claimed that Tuttle hired a rig from him and in payment for the same gave him a bogus check purporting to be signed by John Gorman. The check was for \$5.39 and was drawn on the German-American Bank. The manner in which the check was drawn aroused Mr. Ashton's suspicions, which resulted in the arrest of the young man.

Seven Offenders. Bonnie Heiges, W. S. Black, Ben Mort, Chas. Ricketts, Wm. Gorman, Samuel Webb and Ed. Landman were arrested by officers of the city and conveyed to the city jail on the charge of illegal fishing. The offenders were fishing in the city water works reservoir, which is prohibited by law. After giving them a good lecture the mayor released them, but the next offenders will be given a more severe punishment.

Special Officers. Edward Veasey, Thor. Mosgrove, Jno. F. Brennan and Wallace Landman have been appointed special officers for conveyance work by the city.

John W. Bask, C. N. Lear, J. W. Jackson, Frank Grump, A. A. Hoch, subsheriff, P. J. Thoring, Otto Shuck, Harry McGowan, Wm. M. Duery and Harry Harvey, designated by the presiding officer of the Lima Association of Eagles, have also been sworn in as special officers for the week.

MYSTERIOUS MALADY

Attacks Herd of Highly Bred Cattle in Hardin County.

EIGHTY HEAD ARE CONDEMNED.

Experts Will Endeavor to Ascertain What is Killing Them.

State Dairy and Food Commissioner R. W. Dunlap has condemned a large herd of fine cows owned by George W. Gill, of Columbus, and which are located on a farm in Hardin county which has been attacked by some malady which is killing the animals at a rapid rate. The tuberculin test was applied to the herd but this did not reveal the presence of tuberculosis and the nature of the disease has not yet been determined. There are about 80 cows in the herd and they are finely bred, many being high-class Jerseys. Dairy Inspector George E. Scott inspected the herd and the order of the commissioner was based on this report. Experts will be called in to examine the cows and ascertain what is killing them. The order stopped the selling of milk from the herd.
